

## RTV Silicon Sealant Dispenser

The RTV Silicon Sealant Dispenser is a semiautomatic dispensing system, designed to provide precision dispensing of RTV Silicon adhesive or other materials. It is capable of handling viscosities ranging from liquids to pastes. All contact components are constructed of inert materials to allow dispensing of the most high viscous grease and past.

### Features:

- Manual, Timer, or Cycle Operation Modes.
- Proximity or Foot Switch Controlled.
- Programmable Timer 0.01 – 99.99 seconds
- Suck-Back feature ensures no dripping through vacuum.

### Specifications:

- Size: 270 x 200 x 95mm
- Dispense time : 0.01 - 99.99 hrs
- Operation Modes : Manual, Timed, Cycle
- Internal Memory : Yes.
- Voltage: 220 VAC.
- Air pressure : 5 to.7 Kg/cm<sup>2</sup>

## Company's Product List

### Single Component Dispensing Machines

- Liquid Glue Dispenser
- Grease Dispensing Machine
- Rotary Table Dispensing Machines
- Anaerobic Adhesive Dispensing Machine
- Reservoir Tanks
- Oil Filling Machine
- Dispensing valve
- Digital Alfa Dispenser
- Rotary Tube Dispenser

### Two Component Dispensing Machines

- Fix Ratio Piston Type Metering
- Variable Ratio Gear Type Metering

### Special Purpose for Dispensing & Coating Machines

- Rotary Table Dispensing Machines
- Oil Dispensing and Filling Machine
- Front Fork Oil Filling Machine
- Fasteners & Screws Coating Machine
- Epoxy Insulating Powder and Paint Coating Machine
- Belt and Roller Conveyors
- Liquids Mixing Systems
- Drum Mixing Systems
- Vacuum Sealing Machine
- Vacuum Chamber
- Heating Oven
- Heating Conveyor Oven
- Electronics Testing Equipments
- Pneumatic Press for Number Punching
- Laser and Inkjet Printing Belt Conveyors
- Multi Head Drilling and Tapping Machine
- Aluminum Extruded Assembly and Works Tables
- Chamfering Machine
- Automatic Drilling Machine
- Tapping Machine
- Oil spraying Machine
