

JAL Automation & Systems

Vaccum Sealing Machine

Features:

- We manufacture export & supply industrial vacuum packing machine for packing of meat products, electronic components, Sea food, Hardware, medical instruments etc.
- These are microprocessor based system. Delivering high level of packaging performance.
- Sturdy and heavy gauge design, digital display, electrical protection systems.
- Machine SS body with movable trolley
- Mode: Table Top, Movable Trolley

Specifications:

- Chamber Size: Single(Fiber top)
- Voltage(V/HZ): 230/440/50
- Sealing Power(W): 600
- Sealing Position of Vacuum chamber:2
- Weight:90kg

Company's Product List

Single Component Dispensing Machines

- Liquid Glue Dispenser
- Grease Dispensing Machine
- Rotary Table Dispensing Machines
- Anaerobic Adhesive Dispensing Machine
- Reservoir Tanks
- Oil Filling Machine
- Dispensing valve
- Digital Alfa Dispenser
- Rotary Tube Dispenser

Two Component Dispensing Machines

- Fix Ratio Piston Type Metering
- Variable Ratio Gear Type Metering

Special Purpose for Dispensing & Coating Machines

- Rotary Table Dispensing Machines
- Oil Dispensing and Filling Machine
- Front Fork Oil Filling Machine
- Fasteners & Screws Coating Machine
- Epoxy Insulating Powder and Paint Coating Machine
- Belt and Roller Conveyors
- Liquids Mixing Systems
- Drum Mixing Systems
- Vacuum Sealing Machine
- Vacuum Chamber
- Heating Oven
- Heating Conveyor Oven
- Electronics Testing Equipments
- Pneumatic Press for Number Punching
- Laser and Inkjet Printing Belt Conveyors
- Multi Head Drilling and Tapping Machine
- Aluminum Extruded Assembly and Works Tables
- Chamfering Machine
- Automatic Drilling Machine
- Tapping Machine
- Oil spraying Machine
